

FAT TRUCK[®] IS PUSHING THE LIMITS WITH ITS NEW 8X8 VEHICLE.

Bromont, Quebec, February 23rd, 2023 – Zeal Motor Inc. the manufacturer of the famous FAT TRUCK[®] is proud to announce the official production launch of its new FAT TRUCK[®] 8X8. The 8X8 was designed to answer the specific need to transport heavier payload or additional crew in the harshest terrains.

The 8X8 will be used by the utility industry to facilitate working in hard-to-reach jobsites. The 8X8 will be available in two variations: HAULER and WAGON.

The FAT TRUCK[®] 8X8 answers the market demand of having an amphibious vehicle that can carry a high payload of 5000 lb (2262 kg) or a crew of 16 workers.

“A vehicle capable of traveling at 25 mph (40 kph) on land, 3mph (5kph) on water, climbing steep muddy hills (75% grade) while meeting all the safety requirements is an outstanding

advantage that only the FAT TRUCK[®] can provide. The footprint of the 8X8 is 1.9 psi at its maximum payload, which is 5 times less than a human. The innovative articulation allows the vehicle to climb vertical walls of 4 feet (1.22m) effortlessly. The FAT TRUCK[®] 8X8 is truly pushing the limits in off-road vehicle capabilities.” Says Amine Khimjee, Vice-President of Sales and Marketing at Zeal Motor.

FAT TRUCK[®] 8X8 WAGON

FAT TRUCK[®] 8X8 HAULER

The Fat Truck[®]8X8 first public appearance will be at the **CONEXPO in Las Vegas from March 14-18, 2023, booth S63729.**
